

What can I expect if  
I study dentistry  
What is it like to be  
a Dental Student

## DID YOU KNOW...

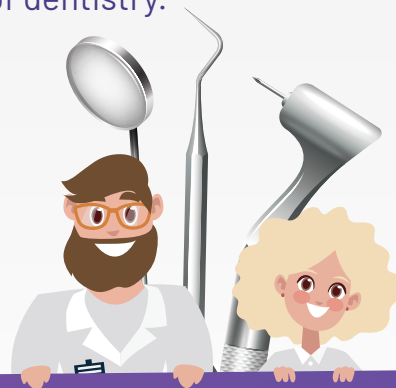

Dental programmes run for **5 to 6 years**, incorporating **theoretical, practical and clinical** skills. Dental students usually **engage with patients** early in their programme and you will participate in **teamwork** throughout your studies.

## REMEMBER

You will be **supported and supervised** to develop the necessary **skills and competences** required. You will be expected to manage your time and also engage in self-directed learning.

Many students find their programmes **intense** and that they have little free time, but many also find it very **rewarding**.

You will be **trained progressively** to care for your patients and learn to use the latest **technology advancements** in the field of dentistry.

## As you develop as a student

- Complexity and responsibility increase over time
- Timetables are rigid and challenging
- You will gain friendships as you develop as a well-rounded healthcare professional
- You will have the opportunity to participate in many learning approaches and environments
