# it's good to know...

a series of easy to understand topics on Oral Health Professional education

N5

International student mobility

What opportunities will I have to study abroad during my Programme

## DID YOU KNOW...

Many students take advantage of **experiencing a study period** with a different university  
This can be a **valuable learning opportunity** as you experience Oral Health care in **different contexts**

## REMEMBER

There are a number of opportunities available including, **Erasmus plus**, international **traineeship or research programmes**, student initiatives and **voluntary** programmes. Each of these have their own criteria and area of focus.

## It's good to know

- You will experience multiculturalism and gain new friendships
- You will learn from other contexts and health systems
- Ensure you check funding options, the support that will be available and if the period of study is recognised within your Programme
